## B.Tech. Civil Engineering

The Department of Civil Engineering focuses on the strong foundation of civil engineering concepts such as structures, water resources, transportation, environment, etc. The state-of-the-art laboratories accredited by NABL facilitate the teaching-learning process and help students imbibe the theoretical concepts, their real-time implications, and their applications along with the industrial training and visits at various sites. The faculty members carry out extensive academic, research and consultancy activities involving students in the program to make them industry ready and ready to face any challenges on civil engineering aspects for a better tomorrow.

Department of Civil Engineering believes that **“Real engineering means: Institute Knowledge with Industrial Experience”**. Our ancient Sanskrit, "योग: कर्मसु कौशलम्" also supports the same.

### Continuing Education

The department has set up a continuing education programs in different semesters to train and upgrade the students to fulfill industrial needs. Some of the feathers of continuing education are;

CADD Computer Software Training

Measurement/Quantification Skill Development

GATE Coaching Guidance

Civil Engineering Carnival

Planning and Drawing Understanding

Engaging Students to Live Projects

Basic Training: Construction Supervision

Guidance for Govt. Jobs Preparation

### Earn While You Learn

The department provides an opportunity to students for earning while learning. Under this program, students can participate in different consultancy works like Material Testing, Traffic Survey, etc...

150+ Projects Completed

300+ Students Participated

### Co-Curricular Activities during A.Y. 2021-23

55+ Expert Lectures

25+ Workshops

20+ Industrial Visits

15+ Seminars

## B.Tech. in Civil Engineering @ Darshan University

- Highly Qualified, Well Experienced, Industry Linked, Dedicated Faculties.
- A strong theoretical foundation for crystal clear fundamentals.
- Focus on project-based learning with applications of technologies in real life.
- Exposure to cutting-edge technologies through seminars and workshops.
- Field training to prepare industry ready students.
- *Earn While You Learn* program transforms a student into an entrepreneur.
- Highest Placement (head count wise) in Gujarat since 2017.

# Syllabus

## Semester-1

- Mathematics - I
- Office Automation Tools
- Surveying - I
- Basics of Electrical Engineering
- Engineering Drawing
- Environmental Studies
- Induction Program

## Semester-3

- Civil Engineering Drawing and Planning
- Building Construction and Materials
- Fluid Mechanics & Hydraulics
- Structural Analysis - I
- Surveying - II
- Indian Constitution

## Semester-5

- Elementary Structural Design
- Highway Engineering
- Professional Elective-I
  - Water and Waste Water Engineering
  - Advanced Geotechnical Engineering
- Professional Elective-II
  - Environmental Engineering
  - Solid Waste Management
- Open Elective-I
  - Advanced Surveying
  - Soft Computing Technique 

## Semester-7

- Construction Project Management
- Design of Steel Structures
- Foundation Engineering
- Life Management Skills
- Minor Project
- Professional Elective - V
  - Design of Hydraulic Structures
  - Repair and Rehabilitation of Structures
  - Traffic Engg. and Transportation Planning
  - Basic Architectural Design 

## Semester-2

- Mathematics - II
- Science for Civil Engineering 
- Structural Mechanics
- Basics of Mechanical Engineering
- Communicative English

## Semester-4

- Basics of Geology & Geotechnical Engineering
- Concrete Technology
- Construction Technology
- Engineering Hydrology
- Structural Analysis - II

## Semester-6

- Design of Reinforced Concrete Structures
- Irrigation Engineering
- Professional Practice and Valuation
- Professional Elective-III
  - Railway, Airport and Harbour Engineering
  - Theory of Architecture 
- Professional Elective - IV
  - Earthquake Engineering
  - Highway Construction Technology
- Open Elective-II
  - Building Utilities Management 
  - Building Quality Control & Management 
  - Entrepreneurship

## Semester-8

- Internship / Major Project

“ Education is the most powerful weapon which you can use to change the world. ”

## Key Pillars

---

### **Dr. R. G. Dhamsaniya**

President

Ph.D. (Structural Engg.)

Experience : 38 Years

---

Dhamsaniya sir is one of the popular personalities in the field of engineering education. He has started his career as a lecturer at L. E. College Morbi and worked for 10 years. He is prominently recognized as a pivotal pillar and an outstanding administrator in the field of education. During 38 years of his career, he has notably contributed to the development of a quality-focused educational system and institutional governance.

---

### **Prof. M. V. Sanghani**

Vice Chancellor

Ph.D. (Pursuing), M.E. (Structure)

Experience : 34 Years

---

He has completed B.E. in Civil Engineering from L. E. College, Morbi in the year 1990 and was awarded gold medal by Saurashtra University. He has done his post graduation from M. S. University, Baroda in 2005. He plays a vital role in integrating academics with industries. His career experience spans around 34 years and, presently he is the founder Vice Chancellor of the University.

### **Prof. M. D. Barasara**

Adjunct Professor (Civil)

M.E. (Structure)

Experience : 36 Years

---

Barasara sir, popularly known as an encyclopedia of Darshan, has an extensive and exhaustive knowledge of not only engineering but also of Veda, Ayurveda, Sanskrit, History, Maths, etc. He has outstanding knowledge and wide experience of handling civil engineering projects, structural designing of buildings and material testing. He is actively involved in consultancy & testing projects.

## Key Faculties

### Prof. Dipak K. Jivani

Head, Asst. Professor

Ph.D. (Pursuing), M. Tech. (CASAD)

Experience : 15 Years

He has pursued graduation in Civil Engineering from L.E. College-Morbi in 2006 and post graduation from Nirma University in 2008. Currently he is pursuing Ph.D. from GTU. He has 8 years of experience at TATA Consulting Engineers. He has professional experience in the structural designing of various industrial structures, multi-storied buildings & machine foundations.

- COD Digester
- BOD Incubator
- Respirable Dust Sampler
- Gas Analyzer
- Hardness Test Kit, Chloride Test Kit
- Sulphate Test Kit, PH & TDS Meter
- Hot Air Oven, Spectrometer
- Muffle Furnace
- Stack Monitoring Kit
- Kjeldahl Assembly

# Structural Analysis Lab

Maxwell's Reciprocal Theorem

Steel Structure Connection

## Equipment :

- Shear Force & Bending Moment in Beam
- Behavior of Column & Strut
- Pin Joint Truss
- Deflection of Truss
- Portal Frame
- Redundant Joint Truss
- Three Hinged Arch
- Elastic Properties of Deflected Beam
- Maxwell's Reciprocal Theorem
- Steel Structure Connection

### Equipment :

- Model of Pneumatic Caisson, Pile and Footings
- Models of Types of Doors & Window
- Gravity Dam
- Canal Drop
- Imhoff Tank
- Syphon Aqueduct
- Sedimentation Tank
- Models of Bricks, Silt Ejector
- Models of Roofs, Raking Support

## Concrete Technology Lab

LA Abrasion Test

Cube Casting

### Equipment :

- Loading Frame
- Vicat Apparatus
- Blaine's Air Permeability
- Le-Chatelier Soundness Apparatus
- Slump Flow Test Apparatus
- Compaction Factor Apparatus
- V-Funnel, L- Box, U-Box, J-Ring
- Compressive Strength, Split Tensile Strength
- Los Angeles Abrasion Test Apparatus
- Aggregate Impact Value, Crushing Value

Workability Apparatus

## Licences and Consultancy

### Testing & Consultancy Services (NABL Approved)

Besides high quality teaching, the department runs a Civil Consultancy Cell (CCC) with its multifaceted faculties. It also provides high quality technical advisory support and consultancy to various organizations.

### Environment Services

- Ambient Air Monitoring
- Stack Analysis
- Water & Waste Water Analysis
- Solid / Liquid Hazardous Waste Management
- Noise Monitoring
