

Darshan
UNIVERSITY

B.Tech.
COMPUTER SCIENCE & ENGINEERING

A
technical
under-graduate
program
that prepares you
for the **Futuristic Jobs**
in the evergreen **IT industry**

B.Tech. Computer Science & Engineering

B.Tech. Computer Science & Engineering (CSE) is one of the most sought programs in the Engineering discipline. CSE discipline comprises the study of computations, like analysis of algorithms, programming languages, program design, software, and mobile application development. A Computer Science Engineer, also known as a software engineer, is responsible for designing, developing, testing, and evaluating software used for computers to work. Software development involves designing and coding new programs and applications to meet the needs of a business or an individual. CSE is also the backbone of the most booming fields like Artificial Intelligence, Machine Learning, Big Data, Internet of Things (IoT), Quantum Computing, Block Chains, Industry 4.0 Revolution, etc.

The program is ideal for students who wish to pursue a career in software development in the IT-sector.

B.Tech. Computer Science & Engineering Honors in Artificial Intelligence & Machine Learning

Conventional computing techniques either fail or perform poorly in many tasks like driving a car, detecting a pattern, recognizing a face, processing natural language, etc., which humans can do very efficiently. AI & ML is used to develop computer systems that can learn and adapt without following explicit instructions and by using algorithms and statistical models to analyze and draw inferences from patterns in data. In short, AI & ML makes machines smart enough to solve problems efficiently using complex algorithms without human intervention.

The program is ideal for students who are keen to pursue a career in the field of AI & ML.

B.Tech. Computer Science & Engineering Honors in Cyber Security & Digital Forensic

Cybercrime has become a top-level worldwide security threat in a short span of a decade. Guarding data and reducing the impact of network security breaches are the main challenges for a business or an individual. With the global business environment shifting gears to online and cloud data storage and maintenance, the demand for cybersecurity is at its peak. The scope of cybersecurity has widened significantly in terms of skill sets and jobs.

The program is ideal for students who want to pursue a career in the field of cybersecurity.

Job Roles After CSE

Software Developer

Web Designer

BDE / BDA

Web Developer

Software Tester

Software Architect

Mobile App Developer

Quality Assurance

Software Consultant

UI/UX Designer

Database Engineer

Game Developer

Full Stack Developer

Content Writer

SEO

B.Tech. @ DARSHAN UNIVERSITY

- Highly Qualified, Well Experienced, Industry Linked, Dedicated Faculties.
- A strong theoretical foundation for crystal clear fundamentals.
- Focus on project-based learning with applications of technologies in real life.
- Exposure to cutting-edge technologies through seminars and workshops.
- Inter-disciplinary, management and soft skill courses for holistic learning.
- *Earn While You Learn* program transforms a student into an entrepreneur.
- 90%+ Placement track record by *CSE Department* since 2013.

Department

The CSE department is highly prestigious in academics and industry for its integrity, faculties, infrastructure, placements, industry linkage, and app development. The teaching-learning pedagogy highly emphasizes the theoretical fundamentals of computer science with imparting practical and hands-on experience. The department culture is industry-friendly and students can easily access the state-of-the-art laboratory infrastructure.

Faculties

The department has well-qualified highly experienced and industry-linked dedicated faculties. Faculties with industrial experience bridge the gap between academic learning and industrial needs. They are committed to remaining technically up to date with a consistent aim of providing the latest and relevant education to our students, enhancing the contribution of academia.

Syllabus

The curriculum is designed to incorporate the latest technologies and needs of the IT Industry, soft skills & communication to nurture and sharpen the creative potential of each student. Professional skill development activities incorporated into academics help students to stay ahead of the curve.

Project-Based Learning

The academic environment promotes creativity and exploration of the fundamentals of Computer Science & Engg. The department believes in learning by doing. Special Interest Groups are formed from students and faculties. These groups learn, code, and grow together to develop applications useful to society. The department is emphasizing IoT and AI / ML-based real-life projects such as Ambient Systems, Driverless cars, etc.

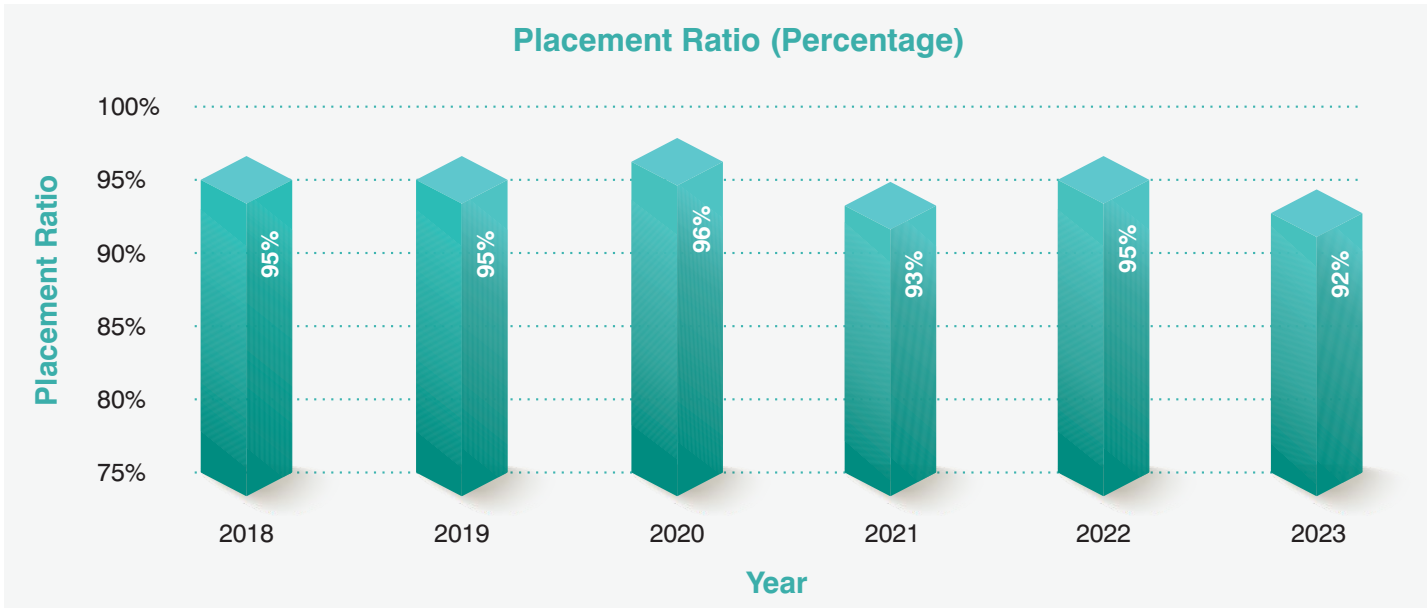

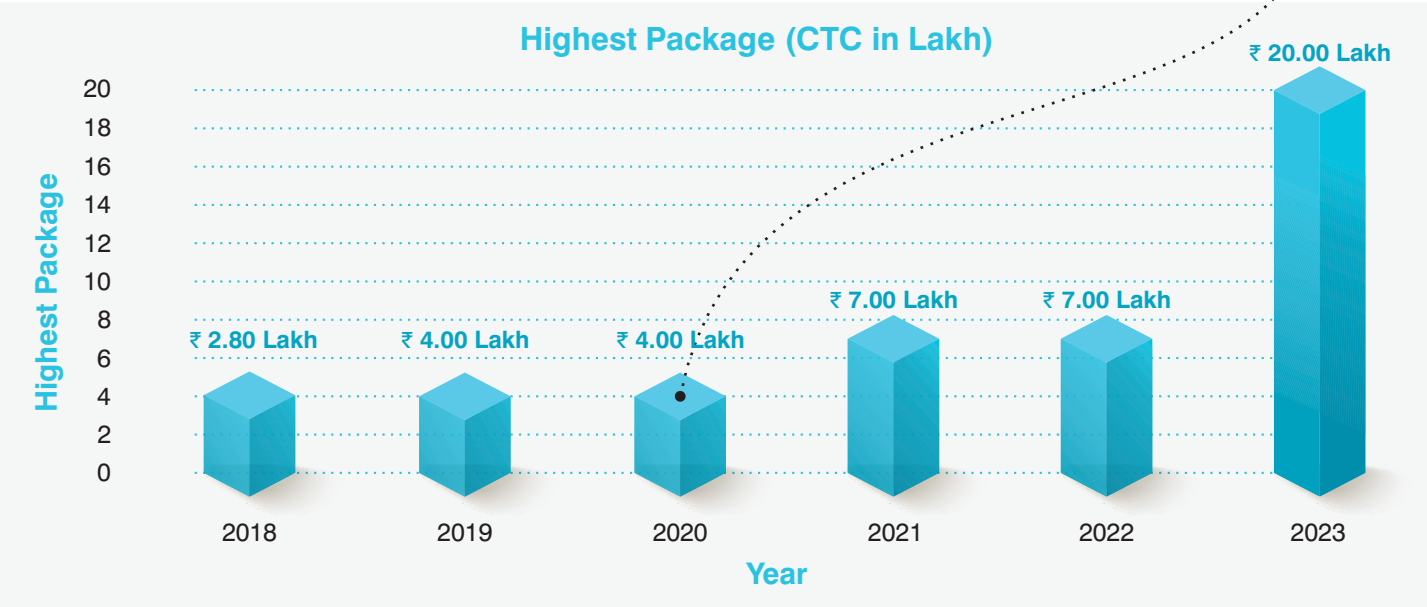

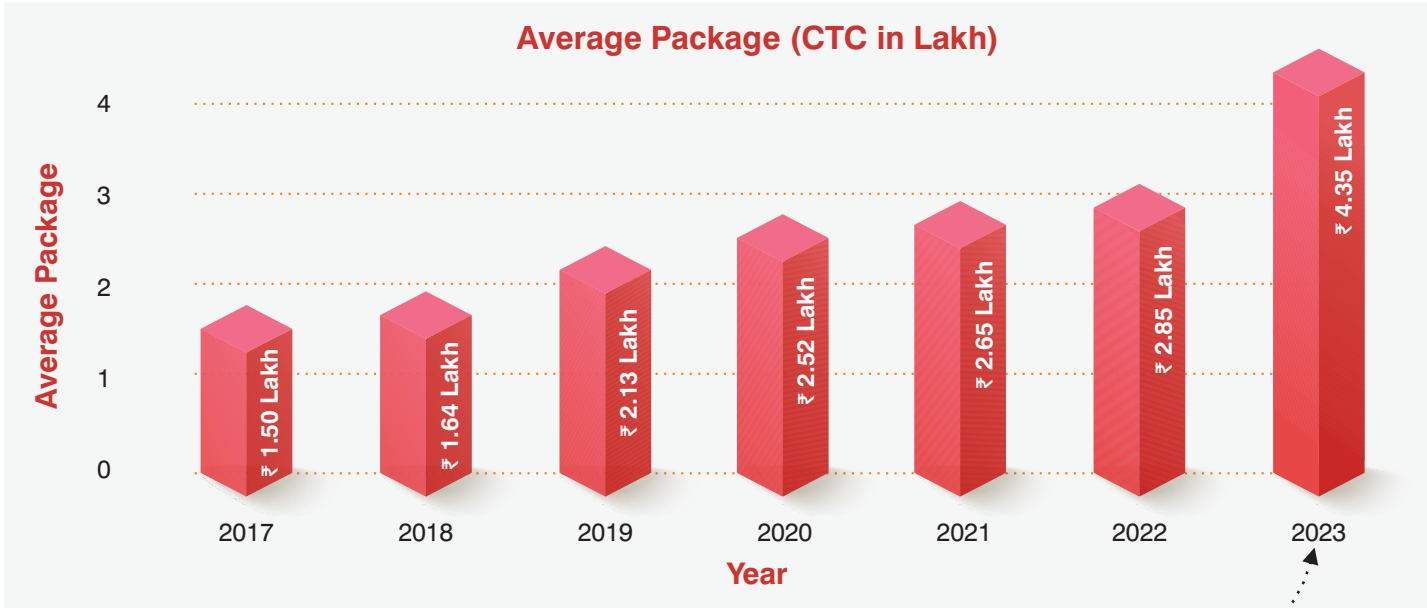

Earn While You Learn

Earn While You Learn philosophy has crafted many students into entrepreneurs during the study only. It also inspires them to think into a new dimension of creativity and ignites business philosophy. Students develop real-world Mobile Apps & Software Projects, which are deployed on Google Play Store & Apple App Store. Students can earn handsome revenue through Google AdSense & Admob.

Placement

The CSE department proudly upholds excellent placement records and emerging career opportunities for the students. The department enables students to understand their interest, requirements, and how to visualize their goals correctly. Some of the training organized are Aptitude & Logical Reasoning, Group discussion, Mock interview sessions, etc.

that blends
current & futuristic
demands of IT Industry
in the curriculum itself

Key Faculties

Dr. Gopi B. Sanghani

Dean, Computer Science
Ph.D. (Machine Learning), M.E. (C.E.)
22 Years Experience

Dr. Gopi Sanghani has completed B.E. in Computer Engineering from DDIT Nadiad, M.E.(CE) from BVM Vallabh Vidyanagar and Ph.D. from Nirma University in the field of Text Mining using Machine Learning Techniques. She has contributed to executing various academic and administrative strategies to achieve departmental goals and initiatives. She has guided various research projects at both Under Graduate and Post Graduate Levels. She has published several International Conference and Journal Papers in the domain of Machine Learning & AI.

She successfully coordinated several workshops and training programs for students and faculties.

ASWDC is Apps, Software and Website Development Center established by School of Computer Science. Students are given extensive training of latest cutting edge technology. Students develop industry standard applications & experience professional environment under the guidance of industry experts & faculty.

Ideas of the students are nurtured, cultivated and transformed into Start-Up. ASWDC acts as a catalyst for entrepreneurship development and integrates the concept of "earn while you learn".
